

□ We have the most beautiful train station in Poland. It comes from the times of the Austrian Empire. It was restored recently and it truly deserves it's fame

The view of the train station

The restaurant at the train station

There are two medieval wooden churches in our town.

There is also the trail going through our town called "Trail of wooden architecture"

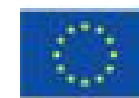

One of the preserved wooden churches. St. Maria's church

We have the only Gypsy museum in the whole Europe!

Welcome in our town

„ My town ”

06 - 09
December 2011

Authors: M. Pałucka , G. Bogacz, M. Żmuda

Our town is exceptional

It is warmest, the most sunny one.
and it has the best weather in the entire Poland.
That fact was confirmed by institute of Meteorology
and Water Economy in the year 2007 . From now on
Tarnów is called " the Polish pole of warmth"

It is the warmest in here - the palace of the Sangusko Dukes

It's "the pearl of the Polish renaissance". We have got many antiques from that time. The most well-known one is the Town Hall rebuilt in that style. You must see the tenement houses around the Market Square and tombstones in the Cathedral (the highest ones in the entire Europe!), and also the "Florentine" house.

The Town Hall

Tenement house arcades

It is said that Tarnów has similar ambiance and character to the Italian towns. That is because of the Italian architects such as ; Bartholomeo Berecci, Jan Maria Padovano and Santi Gucci, who had created it .

The 'Florence House'

15 meter high tombstone of Tarnowski family in our Cathedral
